# i-LOCATE

POWERED BY CELLSTOP

## SVR600 FLEET SYSTEM FEATURE

REDUCED COSTS AND INCREASE PROFITS BY KEEPING TRACK OF YOUR FLEET WITH I-LOCATE

The i-Locate provides **real time information** of your vehicles. An easy to use web interface allows the most convenient way to continuously track idle times, past and present vehicle movements

### Features:

- Tracking reports with graphs / distance travelled / top speed configured to meet your needs
- 12 months historical data
- Allows online Zone settings and speed Limit Alerts per group or individual vehicle
- Instantly identifies where your trucks and drivers are located
- Allows user to draw management reports such as, Usage report, detailed triplog report, overspeeding report
- Enable previous trip(s) replays on the map

### With Driver ID Installed:

- Trip reports per driver available on i-Locate, or automated to email
- Alarm reports per driver available on i-Locate, or automated to email

Having complete visibility and management of your fleet activities will enable greater productivity and ensure cost savings.
